Double Base Cart Adapter

Double Base Adapter converts the standard StackMaster Base Cart into a double Stackmaster Base Cart. Adapter includes heavy duty steel bracket and dual set screws to lock into position. Adapter also includes additional holes to store the anchor plugs (BB-PLUG or BB-BLBP) and base dig-out tool when bases are installed in the field. Compatible with Jaypro Sports StackMaster BBBCART only.

Annual Maintenance / Inspection:

1. Confirm all components / hardware are present and in good working order. Inspect all bolted connections for tightness and replace any missing hardware or components.
2. Inspect all parts for any defects and/or damage. Should any defects or damage exist, contact Jaypro Sports and be prepared to send photos of the part in question. Do not use the unit until proper review and assessment is complete.

Unpack & Verification:

Please refer to the parts list below for the specific model number and confirm all parts are present and accounted for. Report any missing and/or damaged parts to Jaypro Sports immediately before assembly. Be prepared to provide photos of the packaging.

Base Cart Installation:

Step 1: Insert the Double Base Cart Adapter into bottom peg of the Professional Base Cart, secure with both Set Screws as shown in Detail A.
