

*****IMPORTANT NOTE*****
JAYPRO IS NOT RESPONSIBLE FOR THE STRUCTURAL INTEGRITY OF ANY WALL STRUCTURE AND HARDWARE BY OTHERS.

INSTALLATION NOTES:

- 1) All wall anchors are supplied by others. Select the proper wall anchors for the given wall conditions. All wall anchors should be a minimum of 1/2" diameter. Four anchors are required per unit. Do not use impact wrench to tighten wall anchors.
- 2) Mounting height of chin up bar is to be determined by the end user. It is recommended to install the equipment in corner of the gym space, where foot traffic is the least amount. Confirm desired location with end user.
- 3) Before installing wall brackets, confirm pin spacing on the backside of the chin-up bar. If necessary, adjust spacing of wall brackets to match measured pin spacing.

OPERATION & MAINTENANCE:

- 1) This equipment is intended for recreational use in Pre-K through 12 schools. Use of this equipment other than intended, may be hazardous.
- 2) Equipment is intended for 1 person use only at a time. Maximum hanging weight not to exceed 250 lbs. It is recommended to have safety padding located on the wall and floor during use.
- 3) Routine inspection and maintenance must be performed before each use. Verify pull up bar is located properly and secured into position before each use. If any signs of damage are present, do not use the equipment until replacement parts are provided. Periodically verify wall anchors are secure.
- 4) When not in use, it is recommended to remove and store the chin-up bar to prevent unauthorized used; especially if the equipment is permanently mounted to the wall 6' or less.
- 5) For added grip, grip tape can be applied to the chin-up bar (not supplied or offered by Jaypro).
