

PVBN-6ADJ

Adjust the length of the anchor strap as necessary to center net on court. The net will stretch 6" to 8" when tension is applied so you must factor this in before applying tension when centering the net. Tension the net by turning the winch handle. Adjust anchor strap as necessary to keep net centered. Verify net heights and net centering. The uprights will deflect inward and downward due to net tension; you may need to adjust their heights and / or re-center the net. **WARNING:** Release tension from the net before adjusting the height of net. attach the bottom net straps to each upright as shown in section A-A. Wrap Velcro straps around buckles for additional player safety.
