Description: OUTDOOR BEACH VOLLEYBALL SYSTEM

Rev: A

Date: 2/27/2024

SHEET 1 OF 2

OUTDOOR BEACH VOLLEYBALL SYSTEM shall consist of two adjustable uprights with one winch, and shall feature one choice of collegiate or competitive size net. System additionally features one set of antennas and one set of upright padding. System shall be supplied fully assembled.

TWO PIECE ADJUSTABLE UPRIGHTS (OBV300U) shall provide adjustable net height, ranging from 5'-6" to 7'-11.625", to be secured by a positive locking quick release pin that shall be fixed to the individual upright by means of a nylon lanyard. Lower base section of upright shall be constructed of aluminum pipe measuring 3.5" OD and 0.3" wall thickness with a durable black finish. Lower section shall be constructed to accommodate standard 3.5" OD pipe ground sleeves (OBV-100G) and ground inserts (OBV-100AK) that shall secure the upright system in position. Upper telescoping section shall be constructed of aluminum pipe measuring 2.875" OD and 0.230" wall thickness. Upper section shall feature a recessed impact resistant polycarbonate 4" OD pulley wheel that shall accommodate net tensioning cords. Winch strap shall contain enough length to adapt to varying sleeve installation widths. The singular individual upright weight shall not exceed 30 lbs.

NET TENSIONING WINCH (PVBWINCH) shall be constructed containing an internal worm gear featuring a high efficiency 10:1 turn ratio that shall eliminate snap back. The worm gear shall be completely enclosed within by means of a welded steel cover. Winch shall be furnished with a high quality folding handle. Winch shall be located on the lower section of the upright, exterior to the court for player safety.

VOLLEYBALL NET not included with system. System accommodates collegiate size 27'-10" x 39" (OBVN-1) or competitive size 32' x 39" (OBVN-2) volleyball net. Net shall feature 3" vinyl border and head bands specifying side and top borders in the color white with bottom headband in the color black. Net shall be fitted with a 0.25" Dyneema top cord manufactured with one swaged loop end and a 0.25" double braided polyester bottom rope. Included with net shall be six 1.0" width white polyester straps that shall go through slits of net. Net shall utilize 4" #36 black nylon netting, UV & mildew resistant vinyl, and two 0.5" OD fiberglass end dowels that shall be enclosed within safety pockets. Optional custom headband net tape (CVNT-1) and custom side net tapes (CVNT-2) available for additional cost.

ANTENNAS (VBA-4) shall be included with this system.

UPRIGHT PADDING (PVB-60P) shall be included with this system. Upright pad shall be constructed of 2" thickness polyurethane foam covered with 14 oz vinyl coated nylon. Pad design shall allow for easy installation by means of enclosing upright and securing with hook and loop closure flaps. Pads are available in thirteen colors.

Ground sleeves or ground inserts are required to install this system, not included.
